

100 Lines To Get Hot First Dates

Presented by:

Master Coach at High Integrity Skills

Hey Truth Seeker,

If you're here now you may be struggling like I was a decade ago to consistently get hot girls on first dates. Or maybe you're already successful and just wanted more lines you can use to perfect your game.

Either way, these 100 lines hand-plucked from my 12+ years in-field will help you achieve an abundant dating life.

I have grouped the lines into: cold approach, online dating, and attraction and connection triggers. This way, whether you are meeting her for the first time on the street or writing your first message on a dating app, you'll know exactly what to say.

Please note that my game is calibrated for my version of [9s and 10s](#), so these lines may not work as effectively for girls who think of themselves as lower on the rating scale.

Running 9 / 10 game is based on 3 things: **value, congruence, and willingness to walk away.**

Also, your voice, body language and tonality will determine your success rate ratio.

If you want the principles behind these lines and how to customize them to your own core personality to be even more powerful, consider checking out my [First Date Formula](#).

In it, I give you the 300+ lines and first-principles I use from meet to starting an intimate relationship with exceptional women that I've used over the last 10 years. You'll understand how to develop lines that are unique to your core personality and how to build a lead funnel using approaches, online and your social circle.

If you're not getting the results you want using these 100 lines, please note the lines themselves have been field-tested by me and hundreds of my clients over the years in private coaching. Use them as training wheels and work on your eye contact, subcommunication and tonality.

As always, a better [style](#) will improve your odds of success, especially with high caliber girls.

Opinion Opener

#6 Hey, let me get your take on something. I've only got a sec but I'm trying to give my friend over there advice, but we're just a bunch of guys –so we're really not qualified to comment on these matters. (What do you think about your little sister wanting to get a tattoo on her lower back?)
